KHALED ALNWELATE MASRE

JUNIOR SOFTWARE ENGINEER

Istanbul, Türkiye | +90 555 093 9548 | khaledalnwelate@gmail.com | github.com/khalednm-byte

PROFESSIONAL SUMMARY

Recent Software Engineering graduate with hands-on experience in game development, robotics, and IoT. Developed a 2D platformer using Godot and completed internships involving ROS 2, Gazebo Fortress, Arduino, STM32, and Raspberry Pi. Fluent in English, comfortable working across software and hardware environments, and seeking an entry-level software engineering role.

TECHNICAL SKILLS

Programming: C, C++, Java, SQL
Technologies: Linux, ROS 2, Gazebo Fortress, Godot, Arduino, STM32, Raspberry Pi, GitHub
Core Strengths: Problem-solving, research, teamwork, continuous learning
Languages: English - Fluent | Turkish - Basic conversational | Arabic - Native

EXPERIENCE

ALTINBAŞ EVA TEAM | Robotics Systems Intern — Dec 2025 - Mar 2026
Worked with ROS 2 and Gazebo Fortress in robotics development and simulation tasks.
Conducted testing with Arduino and STM32 microcontrollers.

DODOTIK | IoT Solutions Intern — Jun 2026 - Jul 2026
Contributed to embedded systems projects involving Raspberry Pi and related hardware.
Gained practical experience working across software and hardware components in an IoT environment.

SELECTED PROJECT

ROYAL BLOOD | Graduation Game Project — Nov 2025 - May 2026
Developed a 2D platformer using the Godot game engine as a software engineering graduation project.
Programmed custom tools to improve and streamline the game development process.

EDUCATION

ALTINBAŞ UNIVERSITY — 2022 - 2026
Bachelor of Science (B.S.) in Software Engineering | English-taught program

CERTIFICATIONS

C++ Intermediate Certificate - SoloLearn
SQL Intermediate Certificate - SoloLearn
